1.Uses and Disclosures of Protected Health Information

Uses and Disclosures of Protected Health Information Based upon your Written Consent

You will be asked by your physician to sign a consent form. Once you have consented to use and disclosure of your PHI for treatment, payment and health care operations by signing the consent form, your physician will use or disclose your protected health information as described in this Section 1. Your protected health information may be used and disclosed by your physician, our office staff and others outside of our office that are involved in your care and treatment for the purpose of providing health care services to you. Your PHI may also be used and disclosed to pay your health care bills and support the operation of the physician's practice.

Following are examples of the types of uses and disclosures of your protected health information that the physician's office is permitted to make once you have signed our consent form. These examples are not meant to be exhaustive, but to describe the types of uses that may be made by our office once you have provided consent.

This includes the coordination or management of your health care with a third party that has already obtained your permission to have access to your protected health information. For example, we would disclose your protected information, as necessary, to a home health agency that provides care to you. We will also disclose protected health information to another physician who may be treating you when we have the necessary permission from you to disclose your protected health information. Payment: Your protected health information will be used, as needed, to obtain payment for your health care services. This may include certain activities that your health insurance plan may undertake before it approves or pays for the health care services we recommend for you such as: making a determination of eligibility or coverage for insurance benefits, reviewing services provided to you for medical necessity, and undertaking utilization review activities. For example, obtaining approval for a hospital stay may require that your relevant protected health information be disclosed to the health plan to obtain approval for the hospital admission.

Healthcare Operations: We may use or disclose, as-needed, your protected health information in order to support the business activities of your physician's practice. These activities include, but are not limited to, quality assessment activities, employee review activities, training of medical students, licensing, marketing and fundraising activities, and conducting or arranging for other business activities.

For example, we may disclose your protected health information to medical school students that see patients in our office. We may also call you by name in the waiting room when your physician is ready to see you. We may use or disclose your protected health information, as necessary, to contact you to remind you of your appointment.

We will share your protected health information with third party "business associates" that perform various activities (e.g., billing, and transcription services) for the practice. Whenever an arrangement between our office and a business associate involves the use or disclosure of your protected health information, we will have a written contract that contains terms that will protect the privacy of your protected health information.

We may use or disclose protected health information, as necessary, to provide you with information treatment alternatives or other health-related benefits and services that may be of interest to you. We may also send you information about products or services that we believe may be beneficial to you. You may contact our Privacy Contact to request that these materials not be sent to you.

You have the right to inspect and copy your protected health information. A "designated record set" contains medical and billing records and any other records that your physician and the practice use for making decisions about you.

Under federal law, however, you may not inspect or copy the following records; psychotherapy notes; information compiled in reasonable anticipation of, or use in, a civil, criminal, or administrative action or proceeding, and protected health information that is subject to law that prohibits access to PHI. Depending on the circumstances, you may have a right to have this decision reviewed. Please contact our Privacy Contact if you have any questions about access to your medical record.
